

TO PUBLISH DIRECTORY... Named as supervisor of the 1959-60 business directory of the Torrance Chamber of Commerce is John Popovich, local public relations man.

J. Popovich to Print Directory For Chamber

Dick Fitzgerald, manager of the Torrance Chamber of Commerce, has announced the appointment of John Popovich, president of the local advertising and public relations firm of John Popovich & Associates, as chairman of the Chamber's publications committee. In this capacity Popovich will supervise the publication of the 1959-60 Torrance Chamber of Commerce Business Directory, which will be delivered to Torrance residents in mid-September of this year.

Popovich, long-time Torrance resident, started his firm here three years ago as a one-man agency. The organization has since expanded to become one of the largest industrial advertising agencies in southwest Los Angeles County.

Paper Plant Dedication To Be Today

West Virginia Pulp and Paper Co. will dedicate its Torrance plant today in ceremonies to be attended by 150 paper sacking users from the western states.

An acknowledged industry leader in the east for many years, West Virginia has chosen the newest and most revolutionary paper product developed in the last twenty years — extensible paper — for production in its newest plant.

Extensible (sometimes called stretchable) paper possesses a flexibility and rugged toughness heretofore unavailable.

The process resulting in "Kraftman Clupak" (its trade name) was developed over a three year period at a cost of over 2 1/2 million dollars.

Numerous public officials will be on hand for the official ceremonies.

Lomita Civic League Sets July Meeting

Next quarterly meeting of the Lomita Civic League will be held at the home of Richard Somers, vice president of the group, at 25319 Pennsylvania Ave., on July 9, it was reported here yesterday.

Attendance at the meeting will be restricted to members of the League, Somers said, because the group will discuss proposed changes in the constitution and election of additional officers.

The June meeting of the League was held at the home of Mrs. George Thompson, president of the organization.

SALT CONTENT

Four barrels of water from the Great Salt Lake in Utah will produce about one barrel of salt after the usual evaporation processes.
